REMARKS

In a telephonic interview of Examiner Young Tse on July 31, 2008, the following transpired:

- Agreement that the proposed amendment includes punctuation and antecedent basis problems.
- The proposed amendments would make the claims allowable over the current references of record, but that another search would be required to determine allowability.
- The Examiner opined that the proposed amendments would invoke a restriction requirement between claims 1-7 and 8-20.

Respectfully Submitted,

Dated: July 31, 2008
